MGM CONTACT

The SMS messaging system advises you of emergency situations, upcoming events and changes of date. This works by either sending a SMS to your mobile phone or converting a text message to a voice message and sending it to your home phone. To enable the message to be delivered to your home phone, an answering service needs to be installed on that number. This can be an answering machine or Telstra call waiting, which enables a message to be left, or something like Telstra 101 messages. If there is no facility for the message to be left while you are out or unavailable the message will be deleted and you will not receive it. This is a feature of the company's system we use and cannot be changed. To make sure that you receive these messages please ensure that your home phone is equipped to do the aforementioned recordings.

MGM Contact: (This is the number that our automated system will use eg for Catastrophic Days).
