

The Junior School is the first stage in a child's school education and our main objective is to provide our students with the opportunity to develop academically, physically, socially and emotionally in a safe, friendly, supportive and caring environment.

In Reception to Year 6, teachers aim to provide a learning environment that is caring, nurturing, and guides students from concrete to abstract thinking. Students work in a variety of learning situations utilising the 'learning to learn' approach. We promote explicit teaching of concepts and skills, play, and resource based learning, student initiated learning and cross age peer work. We promote the school values within daily teaching.

Students currently study eight curriculum areas

- ◇ Arts
- ◇ Design and Technology
- ◇ Health and Personal Development (PE)
- ◇ English
- ◇ Indonesian
- ◇ Maths
- ◇ Science
- ◇ Studies of Society and Environment (History)

We also provide the students with the opportunity to participate in choir, instrumental music and school band music groups.

English is taught using 'WRAP', The Writing Road to Reading methodology where teachers' commit to delivering explicit, systematic literacy instruction.

The Junior school has a fortnightly assembly for students and parent community to celebrate student achievements, communicate messages and develop organisational leadership. Students have access to their own playground, sandpit, grassed and paved seating areas. They also have access to the double synthetic court area and the school oval.
